Appendix ..... 73Questionnaire on Gender Segregated Data on the Participation ofWomen and Men in Political and Public Decision-Making

## BACKGROUND

Balanced participation of women and men in political and public decision-making is a matter of human rights and democracy and as such it is a priority for the Council of Europe. Decisions made by political and public bodies have long-term consequences and it is important that the views and interests of women are fully represented in these spheres. Despite progress achieved in Council of Europe member states, women are still seriously under-represented in political and public decision-making and continue to face difficulties in becoming involved in equitable numbers in the political process.

In March 2003 the Committee of Ministers adopted Recommendation Rec(2003)3 on balanced participation of women and men in political and public decision-making which inter alia defines balanced participation as a minimum representation of $40 \%$ of both sexes in any decision-making body in political or public life.

The Recommendation puts forward eight objectives to be implemented by the governments of member states to promote balanced participation. They include the protection and promotion of equal civil and political rights of women and men, ensuring that women and men can exercise their individual voting rights, reviewing legislation, setting targets and encouraging women to participate in political decisionmaking, monitoring etc. It also proposes legislative and administrative measures as well as supportive measures to be adopted by Member States.

In paragraph 44 of the Appendix to Recommendation, it calls on governments to "monitor and evaluate progress in achieving balanced participation of women and men in political and public life, and report regularly to the Committee of Ministers on the measures taken and progress made in this field", and lists 10 indicators for measuring progress.

This task is the responsibility of the Steering Committee for Equality between Women and Men (CDEG), an intergovernmental committee responsible, inter alia, for ensuring follow-up to the Recommendation and monitoring progress.

Following the adoption of the Recommendation by the Committee of Ministers, the CDEG discussed the question of monitoring progress and agreed that what was needed was a snapshot of the situation in member states on a given date from which progress could be measured. It was also agreed that in order to collect comparable data it was necessary to draw up a questionnaire to be completed by all member states.

Initially the CDEG agreed to limit this first collection of data to the three main decision-making areas: legislative, executive and judicial powers and the three main organs of the Council of Europe: Parliamentary Assembly, Congress of Local and Regional Authorities and the European Court of Human Rights. However, following the Seminar on Women in Diplomacy (Strasbourg, 28-29 October 2004), it was decided to include sex-disaggregated data concerning the diplomatic services.

Finally, the CDEG examined and adopted a Questionnaire on Gender Segregated Data on the Participation of Women and Men in Political and Public Decision-Making (see Appendix I) during its 32nd meeting on 8-10 June 2005 and agreed that the data collected should refer to the situation as at 1 September 2005.

## Data collection

The Questionnaire on Gender Segregated Data on the Participation of Women and Men in Political and Public Decision-Making was drawn up and made available as an on-line web form on 1 September 2005. Member States were invited to complete the on-line web form by 30 September 2005.

In all 36 member States completed, or partially completed the questionnaire: Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, Netherlands, Norway, Portugal, Serbia and Montenegro, Slovakia, Slovenia, Spain, Sweden, Switzerland, "the former Yugoslav Republic of Macedonia", Turkey, Ukraine and the United Kingdom.

The present document contains tables and graphs reflecting the breakdown of women and men in the different decision-making bodies listed above collected by means of this on-line web form.

## Description of the questionnaire

The questionnaire is divided into 4 main sections

1. Legislative power
2. Executive power
3. Judicial power
4. Diplomatic service

## 1. Legislative Power

This section was designed to give the breakdown of women and men in parliament and to identify if there was a relationship between the type of electoral system and the number of women and men elected. It also aimed to highlight the effectiveness of quota rules/regulations: both as regards the type of quota rule/regulation and the different types of sanctions applied.

It is divided into two main sections:

- National Parliaments, further divided in to Single/lower House and Upper house
- Regional Parliaments.

## National Parliaments - Single/Lower House

All member states were required to complete this section

- Unicameral parliamentary States referred to their Single House
- Bicameral parliamentary States referred to their Chamber of Representatives
- Federal States referred to their National Chamber

## Upper House

Only bicameral parliamentary States completed this section:
Federal States referred to the House which represents the interests of the component States of the Federation (ie German Bundesrat)

## Regional Parliaments

The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria: Bundesländer; Germany: Länder; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; UK: devolved parliamentary assemblies.

A Regional Parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.

## Types of Electoral systems

- Plurality-majority system: simple majority or first past the post: This system occurs when a candidate who wins the largest number of vote is elected. This means that even if a candidate only obtains a fairly low level of the overall vote she/he is elected as long as she/he receives the largest number of votes. Example: United Kingdom
- Plurality-majority system: absolute majority (two-round system): To be elected in the first round a candidate needs to win the absolute majority of the votes. If no candidate receives an absolute majority in the first round, then a second round of voting is conducted between the highest-polling candidates from the first round and the candidate who wins the simple majority of the votes is elected. Example: France
- Proportional representation system: Under typical proportional system a party/list shall receive the number of representative offices proportional to the number of votes cast. The seats allocated to a party/list correspond to the proportion of votes gained by it. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed lists: voters can only vote for a party/list without influencing which candidates are elected). Example: Sweden.
- Semi-proportional representation system: This system attempts to combine the positive attributes of both majoritarian and proportional electoral systems: a proportion of the parliament is elected by plurality-majority system while the remainder is elected by proportional representation system. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed: voters can only vote for a party/list without influencing which candidates are elected). Example: Germany

Type of Electoral system in member states

| Plurality-majority: simple majority or first past the post: | Armenia <br> Azerbaijan | United Kingdom |
| :---: | :---: | :---: |
| Plurality-majority: absolute majority (two round): | France | Lithuania |
| Proportional representational system: Closed lists | Austria <br> Croatia <br> Czech Republic <br> Iceland <br> Portugal <br>  <br> Montenegro | Slovenia <br> Spain <br> "the Former Yugoslav Republic of Macedonia" Turkey |
| Proportional representational system: Open lists: |  <br> Herzegovina <br> Cyprus <br> Finland <br> Ireland <br> Latvia | Netherlands <br> Norway <br> Slovakia <br> Sweden <br> Switzerland |
| Proportional representational system: other | Belgium Denmark Estonia | Liechtenstein Luxembourg |
| Semi-proportional representational system: Open lists | Ukraine |  |
| Semi-proportional representational system: Closed lists | Germany | Italy |
| Semi-proportional representational system: other | Greece Hungary | Monaco |

## 2. Executive Power

This section gives the breakdown of the situation in government. It is divided into three main sections: national, regional and local government.

## Regional governments

The term "region" refers to an autonomous territory with special powers of self rule.
The "Regional Government" is the organisation that is the governing authority of a regional political unit. It has the highest executive powers of the regional level.

## Local governments

The municipality is an administrative unit with an elected Council and a Mayor

## 3. The Judicial Power

This section gives the breakdown of women and men in the High/Supreme and Constitutional Courts. As well as giving the breakdown of women and men judges it aims to highlight the relationship, if any, between the appointment method and the number of women and men.

It is divided into two sections:

- High/Supreme Courts
- Constitutional Courts.

All member states were asked to complete the first section High/Supreme Court.
In some countries it is the highest court in that jurisdiction and functions as a court of last resort whose rulings cannot be appealed. Its rules are binding on all other courts.

## Constitutional Courts

This section was not completed by Member States whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature

- The Constitutional Court is a high court found in many countries which deals primarily with constitutional law. Its main authority is to rule on whether or not challenged laws are in fact unconstitutional, and conflicting with constitutionally established rights and freedoms.

## 4. The Diplomatic Service

This section gives an overview of the number of women and men in the higher ranks of the diplomatic services:

- Ambassadors Extraordinary and Plenipotentiary
- Envoys Extraordinary and Ministers Plenipotentiary
- Minister Counsellors
- General Consuls.

## 5. Composition of Council of Europe bodies

In addition to the national data collected by means of the questionnaire, this document contains the breakdown of women and men in the following Council of Europe bodies:

- Parliamentary Assembly of the Council of Europe,
- Congress of Local and Regional Authorities of the Council of Europe and
- European Court of Human Rights.

Data concerning the Parliamentary Assembly of the Council of Europe refers to the situation on 1 January 2005.

The data concerning the bodies of the Council of Europe was not provided by the questionnaire.

## APPENDIX

Questionnaire on Gender Segregated Data on the Participation of Women and Men in Political and Public Decision-Making

## ${ }^{1}$ Electoral systems:

- Plurality-majority system: simple majority or first past the post: This system occurs when a candidate who wins the largest number of vote is elected. This means that even if a candidate only obtains a fairly low level of the overall vote she/he is elected as long as she/he receives the largest number of votes. Example: United Kingdom
- Plurality-majority system: absolute majority (two-round system): To be elected in the first round a candidate needs to win the absolute majority of the votes. If no candidate receives an absolute majority in the first round, then a second round of voting is conducted between the highest-polling candidates from the first round and the candidate who wins the simple majority of the votes is elected. Example: France
- Proportional representation system : Under typical proportional system a party/list shall receive the number of representative offices proportional to the number of votes cast. The seats allocated to a party/list correspond to the proportion of votes gained by it. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed lists: voters can only vote for a party/list without influencing which candidates are elected). Example: Sweden.
- Semi-proportional representation system: This system attempts to combine the positive attributes of both majoritarian and proportional electoral systems: a proportion of the parliament is elected by plurality-majority system while the remainder is elected by proportional representation system. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed: voters can only vote for a party/list without influencing which candidates are elected). Example: Germany

|  | - If yes, are there any sanctions for non-compliance? | Yes $\square$ | No $\square$ |

|  | - If yes, specify the quota percentage/range: <br> - If yes, are the quotas created by | $\qquad$ <br> $\square$ All parties | \% <br> ome parties |

3. Local Governments

## V. JUDICIAL POWER

- The High/Supreme Court in some countries is the highest court in that jurisdiction and functions as a court of last resort whose rulings cannot be appealed. Its rules are binding on all other courts.
- The Constitutional Court is a high court found in many countries which deals primarily with constitutional law. Its main authority is to rule on whether or not challenged laws are in fact unconstitutional, and conflicting with constitutionally established rights and freedoms.
- Member States whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature should provide information only on the High/Supreme Court.

1. High/Supreme Courts - to be completed by all member States

| $>$ | Number of women and men judges in the High/Supreme Court | Women | Men |
| :---: | :---: | :---: | :---: |
| $>$ | Can judges access the High/Supreme Court purely by seniority ? | Yes $\square$ | No $\square$ |
| > | Are judges appointed? | Yes $\square$ | No $\square$ |
|  | - If yes, specify who appoints them: <br> - Head of State <br> - Head of Government <br> - Superior Council of the Magistracy ${ }^{4}$ <br> - Other, please specify $\qquad$ | $\begin{aligned} & \square \\ & \square \\ & \square \\ & \square \end{aligned}$ |  |
| $>$ | Is the President of the High/Supreme Court a woman or a man? | Woman $\square$ | Man $\square$ |

2. Constitutional Courts - Member States whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature should not complete this section.

| $>$ | Number of women and men judges in the Constitutional Court | Women | Men |
| :---: | :---: | :---: | :---: |
| $>$ | Can judges access the Constitutional Court purely by seniority? | Yes $\square$ | No $\square$ |
| $>$ | Are judges appointed to the Constitutional Court? | Yes $\square$ | No $\square$ |
|  | - If yes, specify who appoints them: <br> - Head of State <br> - Head of Government <br> - Superior Council of the Magistracy ${ }^{4}$ <br> - Other, please specify $\qquad$ | $\begin{aligned} & \square \\ & \square \\ & \square \\ & \square \end{aligned}$ |  |
| $>$ | Is the President of the Constitutional Court a woman or a man? | Woman $\square$ | Man $\square$ |

## VI. Diplomatic Service

## Number of women and men

| $>$ | Ambassadors Extraordinary and Plenipotentiary | Women | Men |
| ---: | :--- | :--- | :--- |
| $>$ | Envoys Extraordinary and Ministers Plenipotentiary | Women | Men |
| $>$ | Minister Counsellors | Women | Men |
| $>$ | General Consuls | Women | Men |

## VII. COMMENTS

[^5]
[^0]:    1 The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria: Bundesländer; Germany: Länder; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; UK: devolved parliamentary assemblies. A Regional Parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.

[^1]:    ${ }^{2}$ Abbreviations used in this column:
    HS = Head of State, HG = Head of Government, SCM = Superior Council of the Magistracy, $\mathrm{O}=$ Other.

[^2]:    ${ }^{3}$ Abbreviations used in this column:
    HS = Head of State,
    HG = Head of Government,
    SCM = Superior Council of the Magistracy,
    $\mathrm{O}=$ Other (such as NN).

[^3]:    ${ }^{2}$ The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria: Bundesländer; Germany: Länder; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; UK: devolved parliamentary assemblies. A Regional Parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.

[^4]:    3 The term "region" refers to an autonomous territory with special powers of self rule.
    The "Regional Government" is the organisation that is the governing authority of a regional political unit. It has the highest executive powers of the regional level.

[^5]:    ${ }^{4}$ Superior Council of the Magistracy is a self-governing body of the magistracy. It issues orders for the appointment, assignment, transfer and promotion of magistrates (judges and public prosecutors) together with having responsibility for disciplinary judgements.
