
Sex-disaggregated statistics on the participation of women and men in political and public decision-making in Council of Europe member states

Situation as at 1 September 2008

# Sex-disaggregated statistics on the participation of women and men in political and public decisionmaking in Council of Europe member states 

## Situation as at 1 September 2008

## The Council of Europe

The Council of Europe is a political organisation which was founded on 5 May 1949 by ten European countries in order to promote greater unity between its members. It now numbers 47 European states. ${ }^{1}$

The main aims of the Organisation are to promote democracy, human rights and the rule of law, and to develop common responses to political, social, cultural and legal challenges in its member states. Since 1989 it has integrated most of the countries of central and eastern Europe and supported them in their efforts to implement and consolidate their political, legal and administrative reforms.

The Council of Europe has its permanent headquarters in Strasbourg (France). By Statute, it has two constituent organs: the Committee of Ministers, composed of the Ministers of Foreign Affairs of the 47 member states, and the Parliamentary Assembly, comprising delegations from the 47 national parliaments. The Congress of Local and Regional Authorities of the Council of Europe represents the entities of local and regional self-government within the member states. The Commissioner for Human Rights is an independent institution within the Council of Europe, mandated to promote the awareness of and respect for human rights in the 47 Council of Europe member states.

The European Court of Human Rights is the judicial body competent to adjudicate complaints brought against a state by individuals, associations or other contracting states on grounds of violation of the European Convention on Human Rights.

## The Council of Europe and Equality between Women and Men

The consideration of equality between women and men, seen as a fundamental human right, is the responsibility of the Steering Committee for Equality between Women and Men (CDEG). The experts who form the Committee (one from each member State) are entrusted with the task of stimulating action at national level, as well as within the Council of Europe, to achieve effective equality between women and men. To this end, the CDEG carries out analyses, studies and evaluations, defines strategies and political measures, and, where necessary, frames the appropriate legal instruments.

Appendix ........ Questionnaire on the participation of women and men in political and public decision-making ..... 81

## BACKGROUND

Balanced participation of women and men in political and public decision-making is a matter of human rights and democracy and as such it is a priority for the Council of Europe. Decisions made by political and public bodies have long-term consequences and it is important that the views and interests of women are fully represented in these spheres. Despite progress achieved in Council of Europe member states, women are still seriously under-represented in political and public decision-making and continue to face difficulties in becoming involved in equitable numbers in the political process.

In March 2003 the Committee of Ministers adopted Recommendation Rec(2003)3 on balanced participation of women and men in political and public decision-making which inter alia defines balanced participation as a minimum representation of $40 \%$ of both sexes in any decision-making body in political or public life.

The Recommendation puts forward eight objectives to be implemented by the governments of member states to promote balanced participation. They include protection of equal civil and political rights, individual voting rights, revising legislation, setting targets and encouraging women to participate in political decision-making, monitoring etc. It also proposes legislative and administrative measures as well as supportive measures to be adopted by member states.

In paragraph 44 of the Appendix to the Recommendation, it calls on governments to "monitor and evaluate progress in achieving balanced participation of women and men in political and public life, and report regularly to the Committee of Ministers on the measures taken and progress made in this field", and lists 10 indicators for measuring progress.

This task is the responsibility of the Steering Committee for Equality between Women and Men (CDEG), an intergovernmental committee responsible, inter alia, for ensuring follow-up to the Recommendation and monitoring progress.

The CDEG discussed the question of monitoring progress and agreed that what was needed was a snapshot of the situation in member states on a given date from which progress could be measured.

It was also initially agreed to limit this first collection of data to the three main decisionmaking areas: legislative, executive and judicial powers and the three main organs of the Council of Europe: Parliamentary Assembly, Congress of Local and Regional Authorities and the European Court of Human Rights. However, following the Seminar of Women in Diplomacy (Strasbourg, 28-29 October 2004), it was decided to include sex-disaggregated data concerning the diplomatic services.

Finally, the CDEG examined and adopted a Questionnaire on Gender Segregated Data on the Participation of Women and Men in Political and Public Decision-Making during its 32nd meeting on 8-10 June 2005 and agreed that the data collected should refer to the situation as at 1 September 2005.

## Data collection

The Questionnaire on Gender Segregated Data on the Participation of Women and Men in Political and Public Decision-Making was drawn up and made available as an on-line web form on 1 September 2005. Member states were invited to complete the on-line web form by 30 September 2005.

In all 36 member states completed, or partially completed the questionnaire: Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, Netherlands, Norway, Portugal, Serbia and Montenegro, Slovakia, Slovenia, Spain, Sweden, Switzerland, "the former Yugoslav Republic of Macedonia", Turkey, Ukraine and the United Kingdom.

The results of the 2005 questionnaire were compiled into tables and graphs reflecting the breakdown of women and men in the different decision-making bodies listed above collected by means of this on-line web form.

In 2008, the questionnaire was launched for a second time to measure progress in the participation of women and men in political and public decision-making. Slightly revised in wording, but not in content, the Questionnaire on the Participation of Women and Men in Political and Public Decision-Making was made available as an on-line web form on 1 September 2008. Member states were invited to complete it by 17 October 2008.

The 2008 questionnaire was completed, or partially completed, by 42 member states: Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Montenegro, Netherlands, Norway, Portugal, Romania, Russian Federation, San Marino, Serbia, Slovenia, Spain, Sweden, Switzerland, "the former Yugoslav Republic of Macedonia", Turkey, Ukraine and the United Kingdom.

The present document contains tables and graphs reflecting the breakdown of women and men in the different decision-making bodies listed above as at 1 September 2008 and according to the information collected by means of the on-line web form.

## DESCRIPTION OF THE QUESTIONNAIRE

The questionnaire is divided into 4 main sections

1. Legislative power
2. Executive power
3. Judicial power
4. Diplomatic service

## 1. Legislative Power

This section was designed to give the breakdown of women and men in parliament and to identify if there was a relationship between the type of electoral system and the number of women and men elected. It also aimed to highlight the effectiveness of quota rules/regulations: both as regards the type of quota rule/regulation and the different types of sanctions applied.

It is divided into two main sections:

- National Parliaments, further divided in to Single/Lower House and Upper House
- Regional Parliaments.

## National Parliaments - Single/Lower House

All member states were required to complete this section:

- Unicameral parliamentary states referred to their Single House
- Bicameral parliamentary states referred to their Chamber of Representatives
- Federal states referred to their National Chamber

## Upper House

Only bicameral parliamentary states completed this section:
Federal states referred to the House which represents the interests of the component states of the Federation (ie German Bundesrat).

## Regional Parliaments

The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria: Bundesländer; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; United Kingdom: devolved parliamentary assemblies.

A Regional Parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.

## Types of Electoral systems

- Plurality-majority system: simple majority or first past the post: This system occurs when a candidate who wins the largest number of votes is elected. This means that even if a candidate only obtains a fairly low level of the overall vote she/he is elected as long as she/he receives the largest number of votes. Example: United Kingdom
- Plurality-majority system: absolute majority (two-round system): To be elected in the first round a candidate needs to win the absolute majority of the votes. If no candidate receives an absolute majority in the first round, then a second round of voting is conducted between the highest-polling candidates from the first round and the candidate who wins the simple majority of the votes is elected. Example: France
- Proportional representation system: Under a typical proportional system a party/list shall receive the number of representative offices proportional to the number of votes cast. The seats allocated to a party/list correspond to the proportion of votes gained by it. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed lists: voters can only vote for a party/list without influencing which candidates are elected). Example: Sweden.
- Semi-proportional representation system: This system attempts to combine the positive attributes of both majoritarian and proportional electoral systems: a proportion of the parliament is elected by plurality-majority system while the remainder is elected by proportional representation system. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed: voters can only vote for a party/list without influencing which candidates are elected). Example: Germany

## Type of Electoral system in member states

| Plurality-majority: simple majority or first past the <br> post: | Azerbaijan <br> Luxembourg | Monaco <br> United Kingdom |
| :--- | :--- | :--- |
|  |  |  |
| Plurality-majority: absolute majority (two round): | France |  |
| Proportional representational system: Closed lists | Bulgaria | Slovenia |
|  | Croatia | Spain |
|  | Czech Republic | "the Former |
|  | Iceland | Yugoslav |
|  | Norway | Republic of |
|  | Portugal | Macedonia" |
|  | Russian | Turkey |
|  | Federation | Ukraine |
|  |  |  |
|  |  | Bosnia and |

## 2. Executive Power

This section gives the breakdown of the situation in government. It is divided into three main sections: national, regional and local government.

## Regional governments

The term "region" refers to an autonomous territory with special powers of self rule.

The "Regional Government" is the organisation that is the governing authority of a regional political unit. It has the highest executive powers of the regional level.

## Local governments

The municipality is an administrative unit with an elected Council and a Mayor.

## 3. The Judicial Power

This section gives the breakdown of women and men in the High/Supreme and Constitutional Courts. As well as giving the breakdown of women and men judges it aims to highlight the relationship, if any, between the appointment method and the number of women and men.

It is divided into two sections:

- High/Supreme Courts
- Constitutional Courts.

All member states were asked to complete the first section High/Supreme Court. In some countries it is the highest court in that jurisdiction and functions as a court of last resort whose rulings cannot be appealed. Its rules are binding on all other courts.

## Constitutional Courts

This section was not completed by member states whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature.

The Constitutional Court is a high court found in many countries which deals primarily with constitutional law. Its main authority is to rule on whether or not challenged laws are in fact unconstitutional, and conflicting with constitutionally established rights and freedoms.

## 4. The Diplomatic Service

This section gives an overview of the number of women and men in the higher ranks of the diplomatic services:

- Ambassadors Extraordinary and Plenipotentiary
- Envoys Extraordinary and Ministers Plenipotentiary
- Minister Counsellors
- General Consuls.

## 5. Composition of Council of Europe bodies

In addition to the national data collected by means of the questionnaire, this document contains the breakdown of women and men in the following Council of Europe bodies:

- Parliamentary Assembly of the Council of Europe,
- Congress of Local and Regional Authorities of the Council of Europe and
- European Court of Human Rights.

Data concerning the Parliamentary Assembly and the Congress of Local and Regional Authorities of the Council of Europe refer to the situation on 1 December 2008, while data concerning the European Court of Human Rights refers to the situation on 20 October 2008. Data on Council of Europe bodies was not provided by the questionnaire.

| Average |  |  |  |  | 21,7\% | 78,3\% |

Graph 1: Women and men elected representatives

- Sweden, Finland and the Netherlands are the only member states to have attained the recommended minimum of $40 \%$ of both sexes in their national parliaments.
- $42,6 \%$ of the member states (18 out of the 42 which replied to the questionnaire) have less than 20 $\%$ women representatives in their Single/Lower House.

## Table 2: Women and men elected in Single/Lower Houses by electoral system

| Women and men in Single/Lower Houses <br> by electoral system |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Electoral System | Men | Women | Total | Men <br> $\%$ | Women <br> $\%$ |  |
| Plurality-majority absolute majority (two rounds) | 470 | 107 | 577 | $81,5 \%$ | $18,5 \%$ |  |

| Semi-proportional representational system - open lists | 361 | 49 | 410 | $88,0 \%$ | $12,0 \%$ |  |
| Semi-proportional representational system - other | 252 | 48 | 300 | $84,0 \%$ | $16,0 \%$ |  |

## Graph 2: Women and men elected in Single/Lower Houses by electoral system

## Electoral Quota Laws

Table 3: Member states which have adopted electoral quota laws

| Member states which have adopted electoral quota laws (Single/Lower Houses) |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Member State | Quota | Sanction for Non-compliance | Rank order rules | Women Elected |
| Armenia | 15,0\% | Lists not accepted | Plurality Other | 8,4\% |
| Belgium | 50,0\% | Lists not accepted | Plurality Other | 37,3\% |
| Bosnia and Herzegovina |  |  | Zipping System | 11,9\% |
| Croatia | 40,0\% | Financial Penalty |  | 21,6\% |
| France |  | Financial Penalty |  | 18,5\% |
| Greece | 33,3\% | Lists not accepted |  | 16,0\% |
| Portugal | 33,0\% | Financial Penalty | Zipping System | 28,3\% |
| San Marino |  | No |  | 11,7\% |
| Serbia | 30,0\% | No |  | 21,6\% |
| Slovenia | 25-35\% | Lists not accepted |  | 11,1\% |
| Spain | 40-60\% | Lists not accepted | Plurality Other | 35,1\% |
| "The former Yugoslav Republic of Macedonia" | 30,0\% | Lists not accepted | Plurality Other | 31,7\% |
| Average |  |  |  | 21,1\% |

## Other forms of rank order rules

Armenia: The quota law also includes rank order rules for the candidates stipulating that every $10^{\text {th }}$ candidate on the list must be a woman.

Belgium: The quota law also includes rank order rules for the candidates stipulating that both sexes must be represented among the first two candidates on the list.

Spain: The quota law also includes rank order rules stipulating that $40 \%$ of candidates must be from the opposite sex in all groups of five candidates. Should the number of seats to be filled be under five, the number of women and men must still be as numerically balanced as possible.
"The former Yugoslav Republic of Macedonia": The quota law also includes rank order rules for the candidates stipulating that the opposite sex must be represented on every third place on the list.

| Ukraine | 101800 | 129800 | 231600 | 44,0\% | 56,0\% |
| United Kingdom | 5774 | 13645 | 19419 | 29,7\% | 70,3\% |
| Average |  |  |  | 24,5\% | 75,5\% |

## Graph 19: Municipality councillors

- Four member states have more than $40 \%$ women municipality councillors, with the Russian Federation reaching close to $80 \%$.
- Eleven member states have less than $20 \%$ women municipality councillors, one of which has none at all.
- Italy and Azerbaijan, the two member states with the lowest percentage of women municipality councillors or none at all are the only member states in which municipality councillors are not elected by citizens. In Italy, the municipality councillors are elected by the mayor, whereas in Azerbaijan, they are appointed by the President of the Azerbaijan Republic.

## Table 20: Electoral quotas by law in local governments

| Quotas by law in local governments |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Member State | Quota \% | Non-Compliance Sanction | Rank Order Rules | \% Women Elected |
| France |  | Lists not accepted | Zipping System | 35,0\% |
| Belgium | 50\% |  | Plurality Other | 33,6\% |

## V. JUdicial Power

- The High/Supreme Court in some countries is the highest court in that jurisdiction and functions as a court of last resort whose rulings cannot be appealed. Its rules are binding on all other courts.
- The Constitutional Court is a high court found in many countries which deals primarily with constitutional law. Its main authority is to rule on whether or not challenged laws are in fact unconstitutional, and conflicting with constitutionally established rights and freedoms.
- Member States whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature should provide information only on the High/Supreme Court.

1. High/Supreme Courts - to be completed by all member States

| $>$ Number of women and men judges in the High/Supreme Court | Women | Men |
| :--- | :--- | :--- | :--- |
| $>$ Can judges access the High/Supreme Court purely by seniority ? | Yes $\square$ | No $\square$ |
| $>$ Are judges appointed? | Yes $\square$ | No $\square$ |
| - If yes, specify who appoints them: | $\square$ |  |
| - Head of State | $\square$ |  |
| - Head of Government | $\square$ |  |
| - Superior Council of the Magistracy ${ }^{4}$ | $\square$ |  |
| - Other, please specify | $\square$ |  |
| $>$ Is the President of the High/Supreme Court a woman or a man? | Woman $\square$ | Man $\square$ |

2. Constitutional Courts - Member States whose High/Supreme Courts also have jurisdiction on questions of a constitutional nature should not complete this section.
$>$ Number of women and men judges in the Constitutional Court
$>$ Can judges access the Constitutional Court purely by seniority?
> Are judges appointed to the Constitutional Court?

- If yes, specify who appoints them:
- Head of State
- Head of Government
- Superior Council of the Magistracy ${ }^{4}$
- Other, please specify $\qquad$
> Is the President of the Constitutional Court a woman or a man?
Women

## VII. COMments

## Only those replies received using the on-line questionnaire can be included in the statistics.

The on-line questionnaire will be available on the CDEG's restricted area website from 1 September - 17 October 2008

Please see document
"Instructions for completing the on-line questionnaire on the participation of women and men in political and public decision-making [CDEG (2007) 18]"

[^0]:    ${ }^{1}$ Albania, Andorra, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Georgia, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Moldova, Monaco, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, San Marino, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, "The former Yugoslav Republic of Macedonia", Turkey, Ukraine and the United Kingdom.

[^1]:    2 The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria and Germany: Bundesländer; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; UK: devolved parliamentary assemblies. A regional parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.

[^2]:    ${ }^{1}$ Electoral systems:

    - Plurality-majority system: simple majority or first past the post: This system occurs when a candidate who wins the largest number of vote is elected. This means that even if a candidate only obtains a fairly low level of the overall vote she/he is elected as long as she/he receives the largest number of votes. Example: United Kingdom
    - Plurality-majority system: absolute majority (two-round system): To be elected in the first round a candidate needs to win the absolute majority of the votes. If no candidate receives an absolute majority in the first round, then a second round of voting is conducted between the highest-polling candidates from the first round and the candidate who wins the simple majority of the votes is elected. Example: France
    - Proportional representation system : Under typical proportional system a party/list shall receive the number of representative offices proportional to the number of votes cast. The seats allocated to a party/list correspond to the proportion of votes gained by it. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed lists: voters can only vote for a party/list without influencing which candidates are elected). Example: Sweden.
    - Semi-proportional representation system: This system attempts to combine the positive attributes of both majoritarian and proportional electoral systems: a proportion of the parliament is elected by plurality-majority system while the remainder is elected by proportional representation system. This system can operate with open or closed lists (open: voters can specify their favoured candidate(s) within a given party/list, closed: voters can only vote for a party/list without influencing which candidates are elected). Example: Germany

[^3]:    ${ }^{2}$ The term "region" refers to an autonomous territory with special powers of self rule. For example, Austria: Bundesländer; Germany: Länder; Russian Federation: autonomous republics and territories; Spain: autonomous communities; Switzerland: cantons; UK: devolved parliamentary assemblies. A Regional Parliament is the legislative assembly of a regional political unit. It has the highest legislative powers at regional level.
